

PRESS RELEASE

CANCELLATION OF WATER QUALITY ALERT

Wednesday 9th September 2009

Blackwater has recently experienced water quality issues brought about by unusually high levels of usage. This temporary problem had resulted in water of a dirty nature entering the supply system. The problems experienced had come about due to circumstances within the community resulting in reservoir levels falling to low levels.

Residents are advised that it is now not necessary to boil water for drinking purposes.

Central Highlands Regional Council apologises for any inconvenience this may have caused.

If residents have any further concerns, they can contact Mr Danniell Pymble, Manager Water Utilities on 4982 8345.

Statement issued on behalf of the Central Highlands Regional Council by Mayor Peter Maguire.
