 <p>Central Highlands Regional Council</p>	CENTRAL HIGHLANDS REGIONAL COUNCIL POLICY	
	<p>TITLE: Regional Economic Development Incentive</p>	<p>POLICY REF NO: CHRCP:0013</p>

1.0 Policy Purpose

- 1.1 The purpose of this policy is to implement a policy approach to attracting high quality economic development in all parts of the region. Furthermore, the purpose of the Regional Economic Development Incentive (REDI) policy is to practically demonstrate that the Central Highlands Regional Council is committed to the ongoing attraction of business investment in the region that improves the quality of life for its citizens.
- 1.2 The scope of the REDI policy is specifically designed to capture and evaluate applications for development incentives through a criteria-based process that includes:
 - 1.2.1 amount of direct capital investment in the region
 - 1.2.2 new jobs created.
- 1.3 Importantly, the detailed criteria (below) encourages applications to be flexible in their approach and does not eliminate any new or existing legitimate business entity from applying.
- 1.4 Insofar as the Council's objectives are generally served by the enhancement and expansion of the local economy, the Council will, on a case by case basis, give consideration to providing development incentive packages as stimulation for economic development in the region.

2.0 Policy Statement

- 2.1 The core criteria for the application of any financial incentive is that the business successfully demonstrate a significant net economic benefit to the Central Highlands Region that delivers capital investment and/or genuine ongoing job creation. Typically, the incentive will apply for those industries recognised as key propulsive sectors or target industries as defined within the Central Highlands Economic Master Plan September 2017.
- 2.2 More specifically, in determining the suitability of applying any potential Regional Economic Development Incentives, the following guidelines and key eligibility criteria must be met. Assessments are to be completed initially by the Manager Planning and Environment and supported by General Manager Communities with a report presented to Council recommending support or refusal of applications based on the criteria.
- 2.3 Nothing in the policy shall imply or suggest that the Council is under any obligation to provide any incentive to any applicant unless it meets the criteria for approval.

3.0 Guidelines

- 3.1 Development Incentive packages apply to both facilities and structures for:
 - 3.1.1 New business;
 - 3.1.2 Expansion to existing business
 - 3.1.3 Residential development in targeted Central Highlands townships of Springsure and Rolleston.

- 3.2 Development incentive packages may be applied in a lump sum, paid in instalments or may be linked to project milestones or development goals.
- 3.3 Development incentive packages will not be ordinarily considered for projects which would be developed without such incentives unless it can be demonstrated that higher development standards or other development and community goals will be achieved through the use of the incentive.
- 3.4 Development incentive applications for developments which have already commenced operation will only be accepted if:
 - 3.4.1 It legally commenced operations within the last 12 months (and was not previously operating illegally) and

 - 5.1.2 in the interest of a 'start-up' a minimum of three (3) Full Time Equivalent (FTE) jobs created; or,
 - 5.1.3 for existing businesses, a significant expansion of Full Time Equivalent (FTE) jobs; where,
 - 5.1.4 for 5.1.2 and 5.1.3 above, the jobs are genuine 'new' jobs, not transported or relocated workforce;
- 5.2 Project is contestable, i.e. the company is or has been (and can provide evidence) of consideration of other locations and would not otherwise be situated within the Central Highlands Region if the incentive was not available;
- 5.3 Be a current operational business of more than two years and either have, or can obtain an Australian Business Number (ABN), or
 - 5.3.1 to encourage and support start-up businesses who have been in operation for less than two years, these businesses must have acquired additional grant funding from a dedicated start-up program or demonstrated other financial support structures which will satisfy operational costs during the first two years;

- 5.4 The project does not cause significant detriment to, and/or be in substitution for, existing businesses in the region; and
